

3 Way Mixer Taps

Hot, Cold and Filtered from a single stylised mixer tap.

Deluxe 3 Way

Nova

Long Reach

High Loop

A 3 way mixer tap including an independent line for filtered water. For that new build or kitchen refresh, the 3 way filter tap makes sense. Ideal for engineered stone or granite bench tops including stainless steel sink tops. No need for a separate filter tap through your bench. Will operate on equal or unequal mains pressure water. Simple to use with a hidden filter to suit all types of water including tank, town or bore water.
